

## CD Box DS3

04.2022

**"It sounded really, really good."**

**Watch the Video**

- As for actually using the machine – **it was a pleasure.**
- The display is **very large, very easy to read.**
- The **slot loading mechanism** worked **flawlessly, smoothly, quietly.**
- It just had more **get up and go**, the **bass punch was better.**
- Tonally it just **sounded more fleshed out** – more **body to the sound.**
- It was doing a **better job connecting me with the music.**
- The subtle shifts, the **dynamics were better** played on the Pro-Ject.
